The Job Chart or Exercise Chart

You could use this as a job chart or exercise chart. Just **draw** or place a **picture** of the chore or exercise in the left-hand side of the form. Each time the chore or exercise is done, you or your kiddo can put an X or check mark in a box. You can determine how many days or weeks you would like them to do the chore or exercise before they get to go to a favorite place, do a favorite activity or watch a favorite video.
